'self

June 2nd, 2020 - The self is an individual person as the object of its own reflective consciousness. Since self is a reference by a subject to the same subject, this reference is necessarily subjective. The sense of having a self or selfhood should however not be confused with subjectivity itself. Ostensibly, this sense is directed outward from the subject to refer inward back to its self or itself.

The self aware image: an insight into early modern meta

'What is self awareness life skills that matter

May 31st, 2020 - Obviously I missed school the day they taught us about self awareness. Oh wait that's right, they never taught any of us about it. I believe the practice of self awareness is one of the greatest skills in life because it enables you to learn about yourself in a way no one else can ever teach you. It teaches you how to manage yourself and how to productively engage with other people.'
Self awareness is wasted if it does not result in self acceptance. The research bears this out too: self awareness doesn't make everyone happier; it makes some people more miserable because if great self awareness is coupled with self judgment, then you're merely being more aware of all the ways you deserve to be judged.
